

Australian Sports Culture

FIT2179 Data Visualisation 2 – Hand-Drawn Sketch

Student Name: Haoyu Zhong | Student ID: 35558547 | Date: May 2026

Page Layout Planning

Single-page scrolling layout using 2-column / 3-column grid. Hero section at top, footer with data sources.

Hero Section (Top of Page)

Layout

Australian Sports Culture

Who plays? Who watches? Is the money well spent?

11 Charts

1 Map

Title + Subtitle + Stats Badges

NOTES: Dark gradient background, centered title, short description, two statistic badges

Responsive Grid Layout

CSS Grid / Flex

Chart 1
Heatmap

Chart 2
Heatmap

Chart 3
Grouped Bar

Chart 4
Map

2-Column Layout →

NOTES: Desktop uses 2-3 columns. Mobile stacks to single column via Pure.css

Colour Palette & Typography

Colour Palette

Color Scheme

AFL Red / Rugby Green / Soccer Green / Cricket Orange / Tennis Purple

Dark Background

Light Background

Insight Box

Typography

Fonts

Headings: Playfair Display

Body Text: Inter (clean, readable)

Annotations: Courier New (monospace)

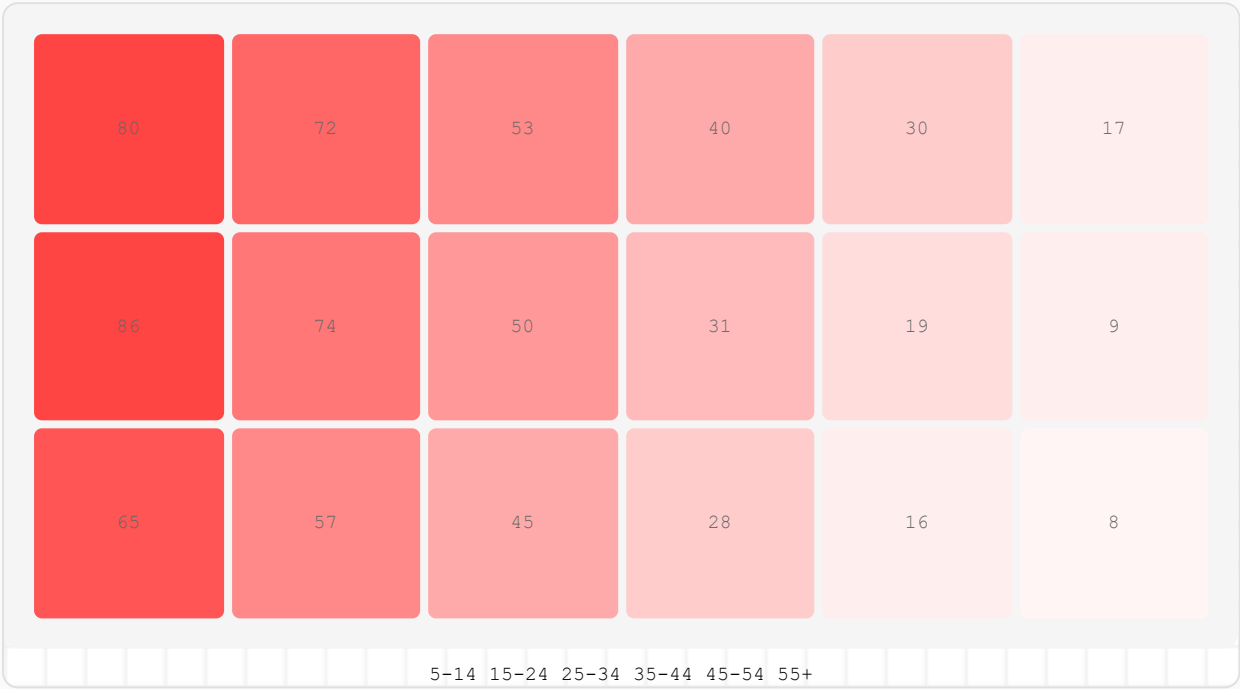

Serif font for headings (authoritative feel)
Sans-serif for body (readability)

Act 1: Who Participates?

Age × Gender × Sport Participation Analysis

Heatmap — Male Participation

rect + color scale

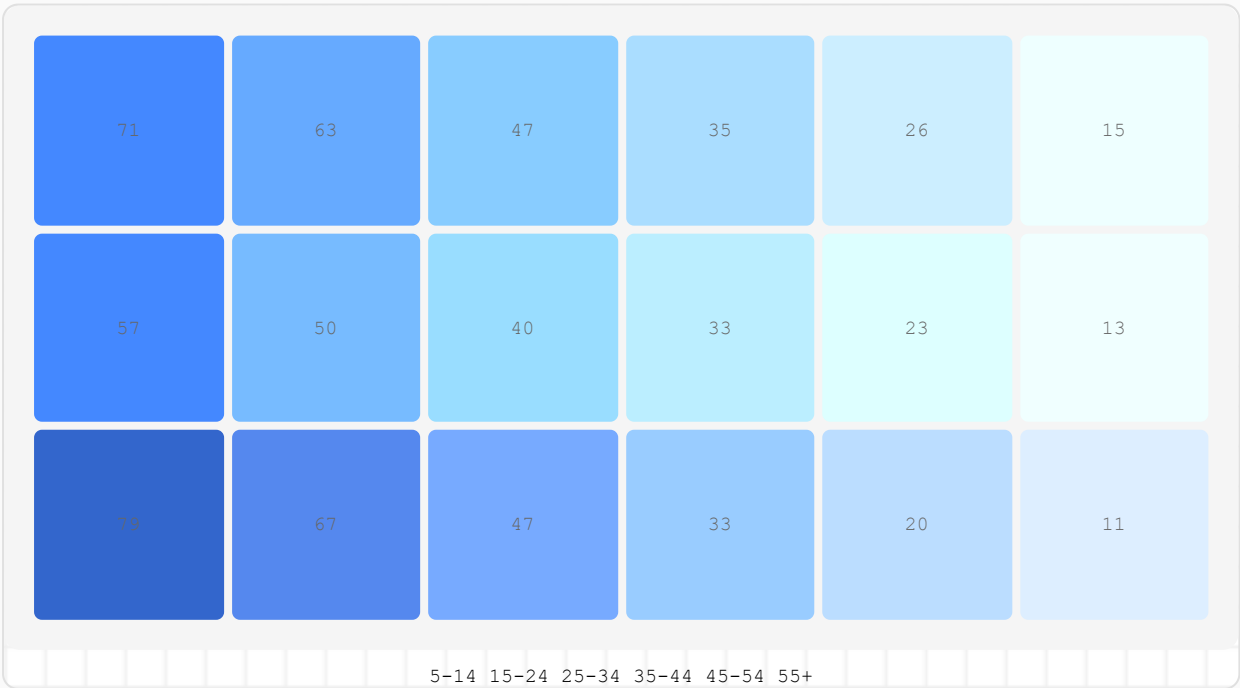

NOTES: X-axis = Age Group, Y-axis = Sport. Colour intensity = Participation rate. Red sequential scale.

Data: age_gender_sport_matrix.csv

Heatmap — Female Participation

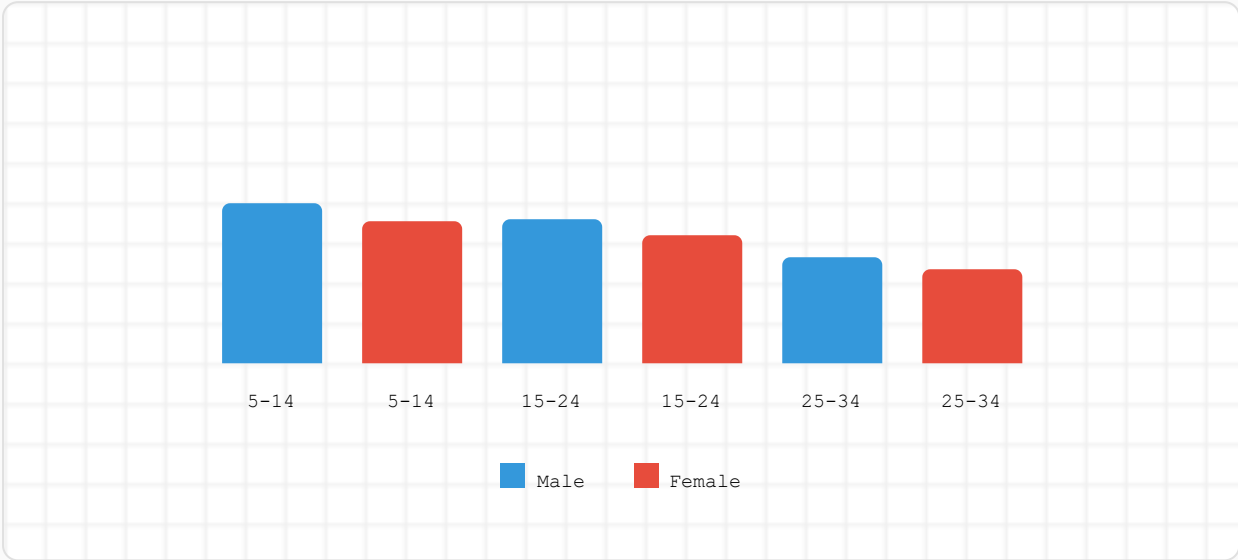

rect + color scale

NOTES: Blue sequential scale. Netball shows highest female participation (79% at ages 5-14)

Grouped Bar Chart — AFL Gender Comparison

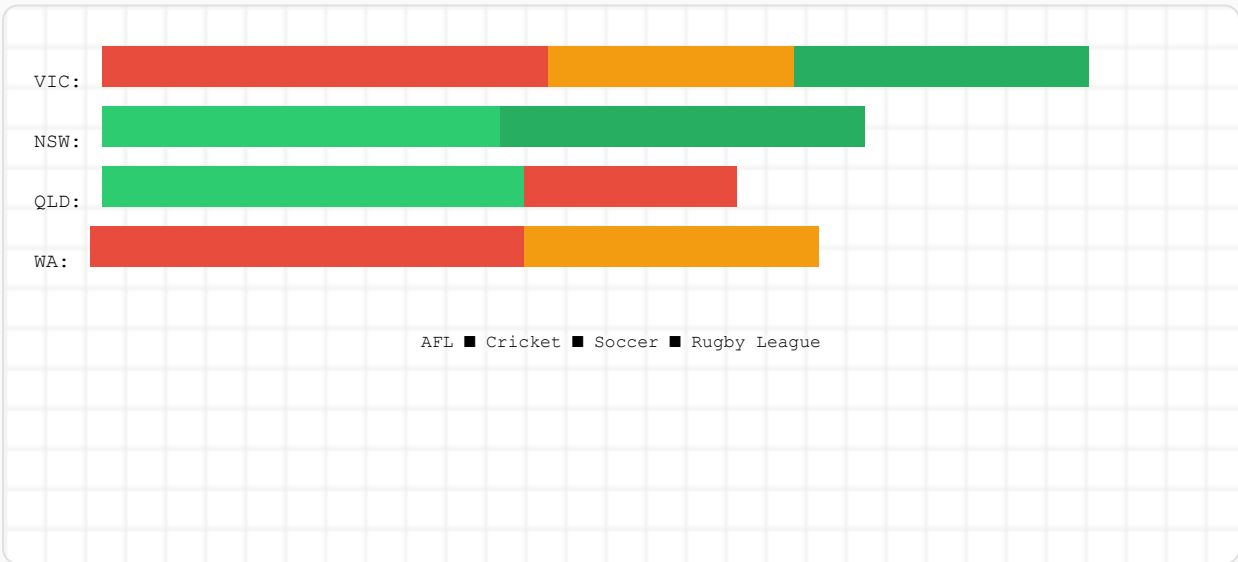

grouped bar chart

NOTES: Side-by-side bars comparing genders. X-axis = Age Group, Y-axis = Participation rate

Stacked Bar Chart — State Sport Share

stacked bar

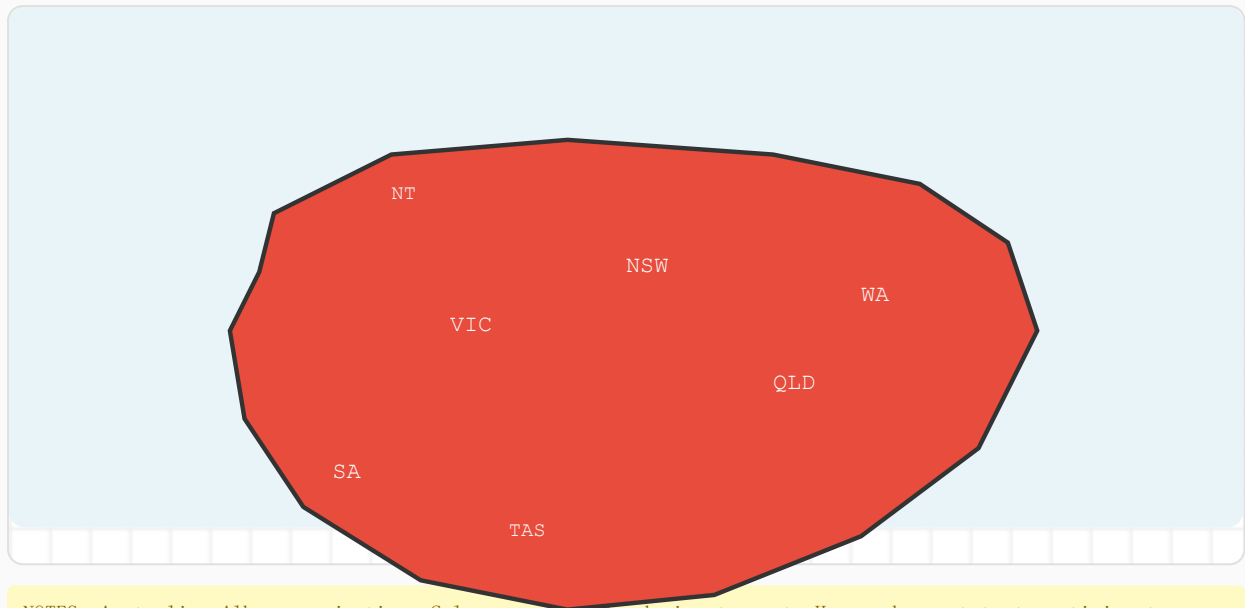

NOTES: Horizontal stacked bars showing sport share by state (100% normalised)

Act 2: State Sport Culture Map

Choropleth Map – Dominant Sport by State

geoshape + projection

NOTES: Australian Albers projection. Colour encoding by dominant sport. Hover shows state + participants.

Geographic Insight Box

annotation

Key Geographic Insights

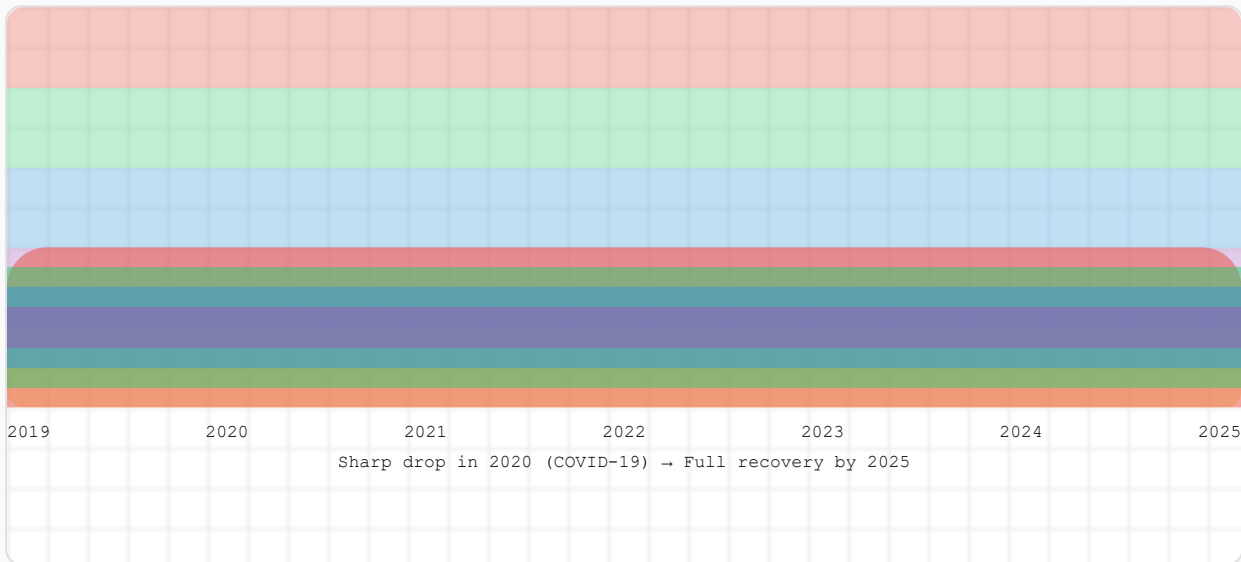

- Victoria is AFL heartland (92% popularity index)
- Queensland & NSW dominated by Rugby League
- ACT is Rugby Union territory

Act 3: Spectator Recovery & Act 4: Funding Efficiency

COVID-19 Impact + Investment Return Analysis

Streamgraph – Attendance Trends

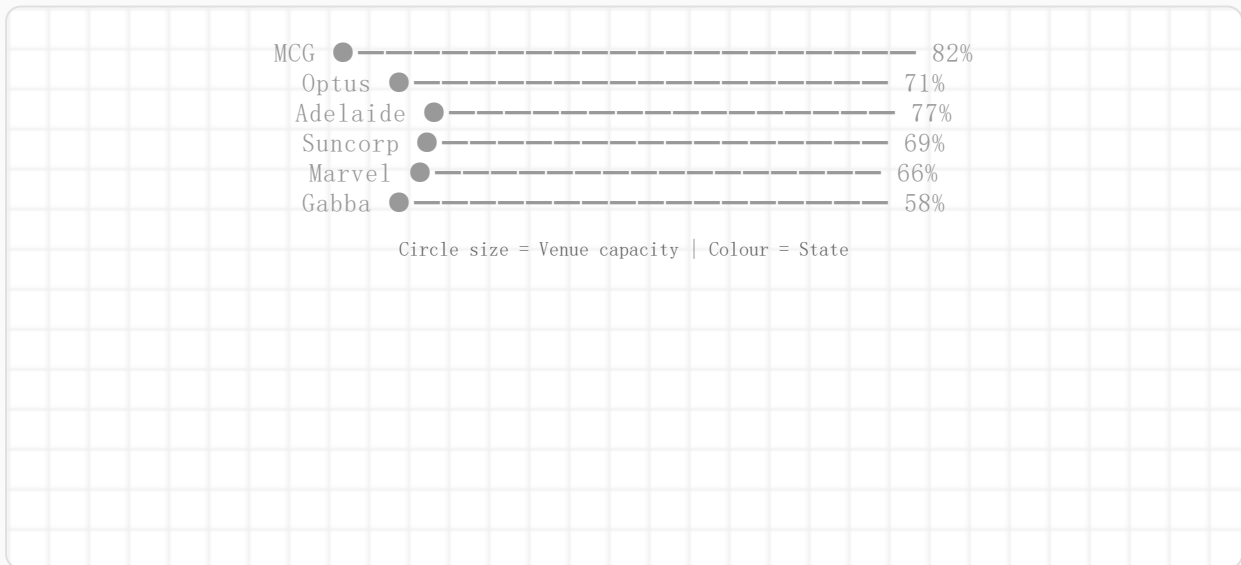

stacked area (center)

NOTES: Streamgraph showing 2019–2025 attendance trends. Centre-stacked highlights sport share changes.

Lollipop Chart – Venue Utilisation

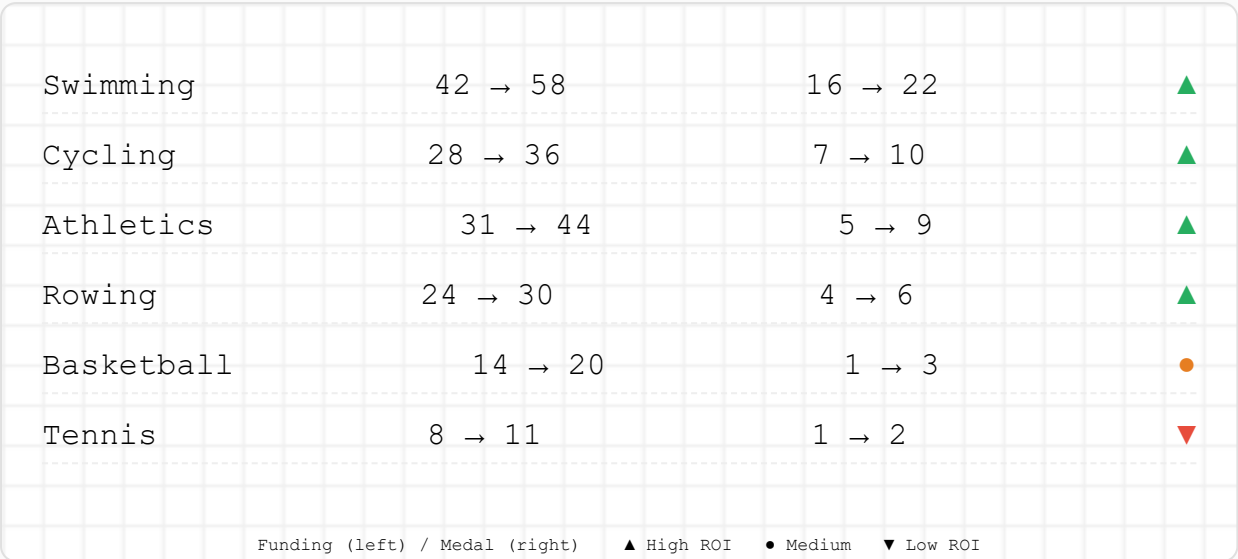

point + rule

NOTES: Lollipop chart showing venue utilisation. Points = utilisation rate, lines = capacity reference

Slope Chart — Funding vs Medals

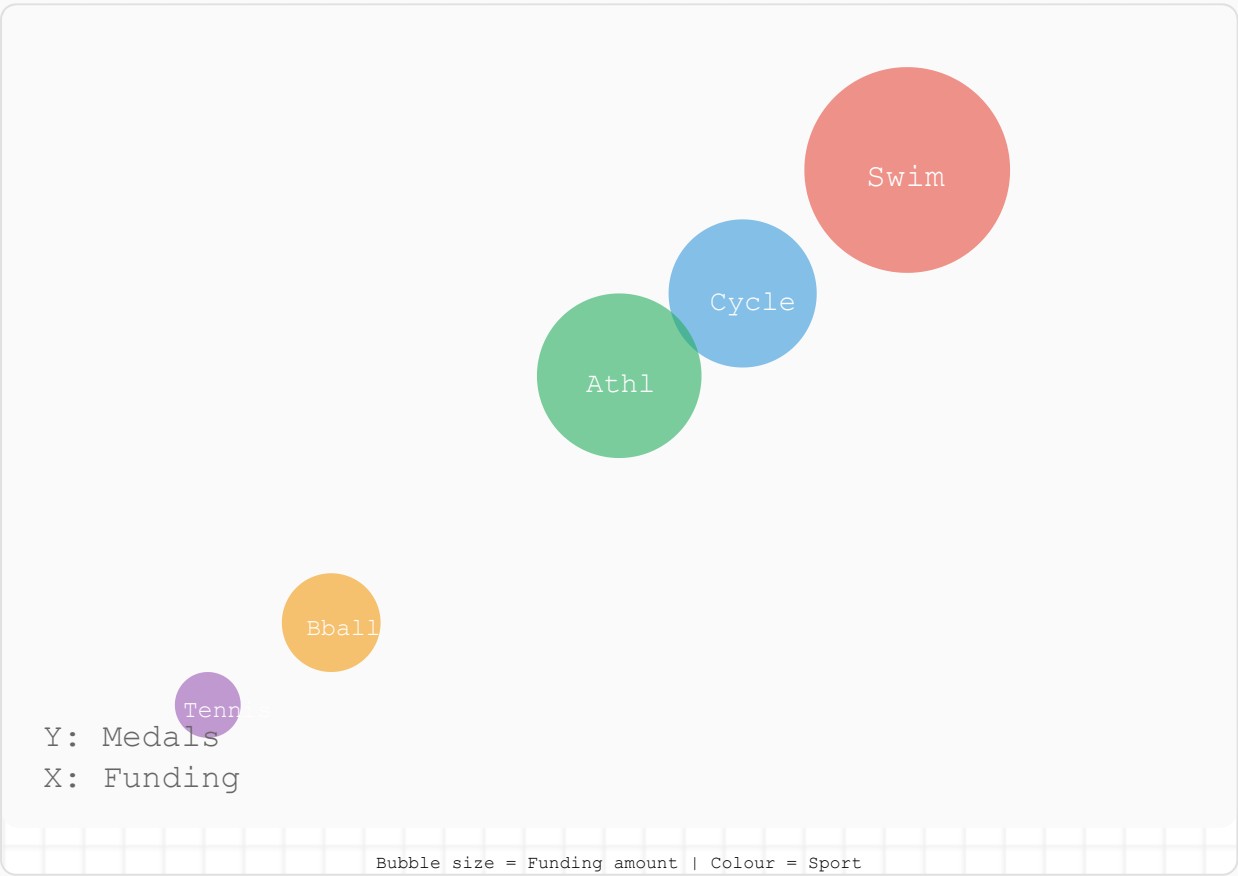

line + point

NOTES: Connecting 2019→2025 points. Shows change in both funding and medal counts.

Bubble Chart — 3D Analysis

circle + size + color

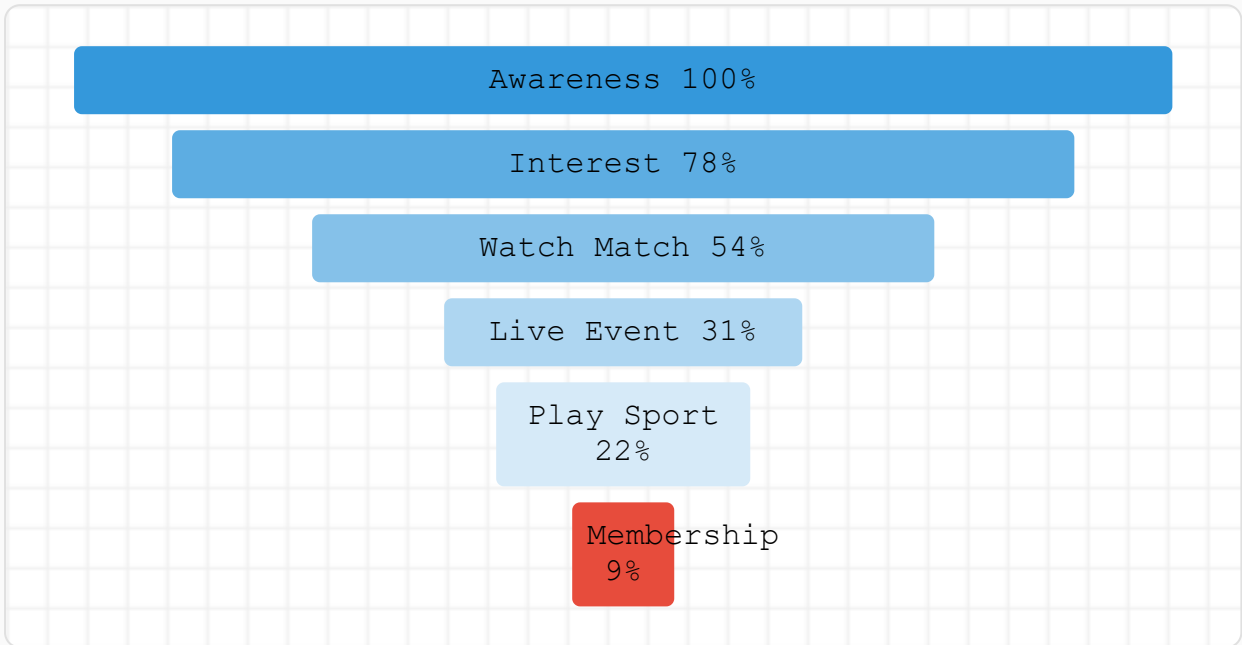

NOTES: Bubble chart showing 2025 relationship between funding, medals, and audience.

Act 5: Pathways to Participation

Awareness to Membership + Page Narrative Flow

Funnel Chart — Fan Conversion

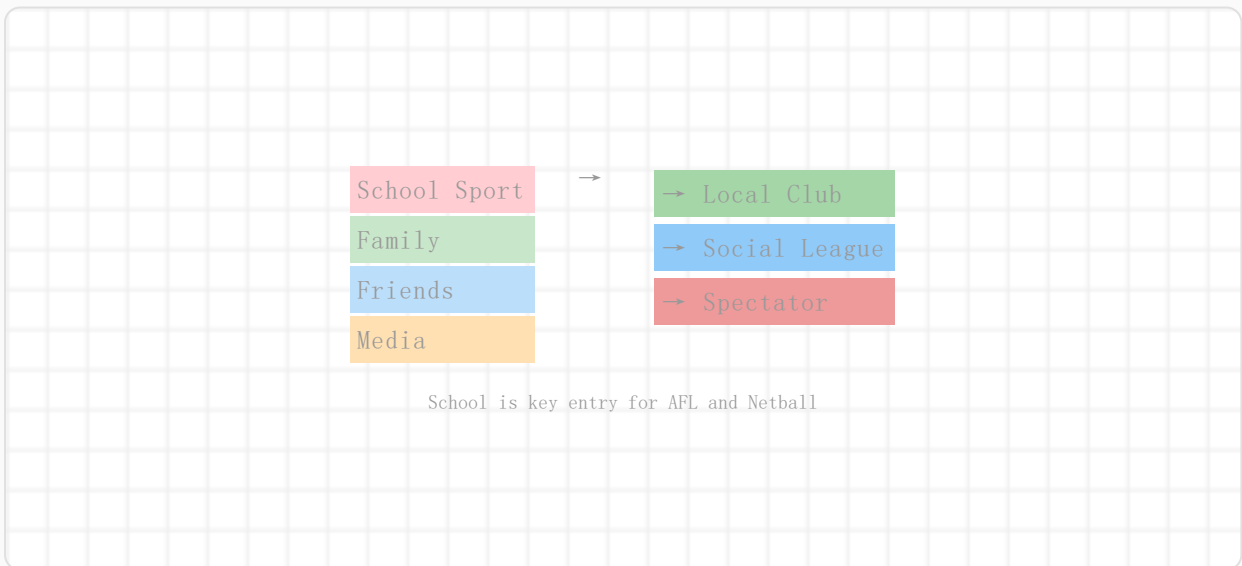

funnel (simulated)

NOTES: Shows conversion from awareness to membership. Only 9% final conversion rate.

Alluvial-style — Participation Flows

flow diagram

NOTES: Flow diagram showing pathways from different entry points to outcomes.

Storyboard (5-Act Structure)

Page Narrative Flow

storytelling

Act 1 — Who Participates?
Heatmaps + Grouped Bar → Age/gender gaps revealed

Act 2 — State Sport Culture
Choropleth Map + Stacked Bar → Geographic preferences

Act 3 — Spectator Recovery
Streamgraph + Lollipop → COVID impact & recovery

Act 4 — Funding Efficiency
Slope Chart + Bubble → ROI analysis

Act 5 — Pathways
Funnel + Alluvial → Conversion optimisation

NOTES: 5-act narrative structure guiding reader through Australian sports ecosystem
